STONELAW LOCAL U. F. A.

At the last meeting of the Stonelaw Local, U. F. A. held at the Stonelaw School, on Sat. May 3rd, a presentation of a set of books was made to Mr. T. Partridge, former Secy of the Local, by the members in appreciation of the services he had rendered them and the community at large.

Mr. Partridge, in a short reply, stated that the gift was most unexpected by him and though he felt amply repaid by the pleasure he derived in serving the community, he felt very pleased at this token of their appreciation and must give them his heartiest thanks for the honor they had given him.

It was decided that the U. F. A. meeting to be held at the Gregerson School on Friday May 23rd be of a political nature. The following matters will be dealt with: Municipal Hospital for this district, election of delegates to the District Convention to be held on June 17 and 18 at Wainwright, U. F. A. picnic, etc. Everybody—farmers and town people—are requested to be present. (See ad.)

The following resolution was passed and carried unanimously
"Whereas nothing practical has been arranged for financing the U. F. A. in the political field, and

"Whereas we consider the Non-Partisan League has arranged for financing the activities of the league in a sound manner and whereas it is essential that both organizations hold together as our aims are practically the same.

"Be it therefore resolved that we the members of the Stonelaw Local of the U. F. A. endorse the Non-Partisan League as the best organization for U. F. A. independent political action, and would urge our executive to use their best efforts to bring both organizations solidly together.

Now is the time to get after the Gopher. If gophers get a start in a field in May or June it is found almost impossible to get rid of them. Use a good grade of poison, Strychnine is recommended as being the best and surest, and you will always find the standard makes at your local drug store.

We still have a supply of fresh Formaldehyde on hand.

New shipment of Moirs' High Grade Chocolates in stock.

BUSY BIDEFORD

A welcome home dance was held in the School for Martin Rickstadt. It was not as well attended as it might have been for the simple reason it was not advertised enough. Numbers of people did not hear of it till it was all over. However, those who attended pronounced it a success. We are asked to suggest to young bachelors who run dances that they should leave the ladies a free hand at supper time and things would then go more smoothly. A certain person who wished to be of use at supper was told, more curtly than courteously, that she had better go and leave the "fixing" of the supper to the boys. It is rather humorous to bring a cake, as requested, and then to be shoosed away because one offers to cut it.

The Sunday evening service was the largest we have seen for a long time in the School. Numbers of cars were out and we were glad to note the young men from the country were in. After the service a few indulged in a joy ride and some spent a pleasant evening at Mrs. Kallman's hospitable home enjoying music and singing.

Seeding is almost over and everyone is looking hopeful. The Spirit of the West is the immortal spirit of hope that "springs eternal in the human breast; man, never is, but always to be blest."

The W. I. will hold its next meeting at Mrs. Rexer's home and the program is a most attractive one. We shall have two papers, one on "Gardening" by the hostess and the other on "The Curing of Meat" by Mrs. Stokoe.

Both ladies are well qualified to deal with their subjects; the memory of Mrs. Rexer's flower garden of last year is a sweet and fragrant one, for she it was who brought posies for our Ice Cream Social, a graceful act which we all appreciated.

We have heard great things of Mrs. Stokoe's culinary talent and we are glad to have the chance to hear her secrets at first hand. Ladies please turn out in full force, there are other attractive items musical and eloquentary.

It is good to have Mrs. J. D. Robinson in our town again. Life has been the poorer since she left and from all sides we hear this expression of goodfeeling, "It's nice to have them back again." We hope in view of the coming leaving of our pastor that all the various Societies will unite to make arrangements for a public tunction in which the Wheatshaf Congregation will join. It is well to take time by the forelock in these matters.

Miss Inkster spent the week end at Compeer with the Bretts and reports a most enjoyable visit. The party returned to Bideford by car in time for Church.

Inspector McLean was here for the weekend and gave us an interesting chat on matters educational. Mr. Learworth, the new man at Uplands School, was also in town.

Business is waking up, we are glad to hear one merchant has so much to see to that he has no time to attend to customers with cash in hand! The only way for them to do is to patronize the house that has made intelligent arrangements to cope with the influx of business and can offer a service efficient and civil. It is surely bad policy to drive ready money out of town because one has no time to take in the order. We would like our Business Men to study the problem of the wage-spenders and establish good feeling between the salesman and shoppers, for we are all members one of another.

Motto for the Business Men's Club.
"A customer at the counter is worth two at Compeer."

Every Farmer
In This District
Should Read The
Nor'-West Farmer

Western Canada's Oldest Farm Paper

If you are already a subscriber you will want to renew your subscription for another year, and if you are not a subscriber to it you ought to be. No farmer in these days of high prices and labor shortage can afford to do anything but his very best. Through a good farm paper you will get ideas worth many times the small subscription price. Each issue of The Nor'-West Farmer is full of valuable information that any up-to-date farmer can use to his own direct advantage. It is edited for the whole farm family. If any reader wants information on any subject relating to either their farm problems or anything else The Nor'-West Farmer information bureau will get that information for them. Their official veterinarian have a weed problem, a soil drifting problem, a feed problem, tractor, automobile, or gas engine trouble of any kind, read The Nor'-West Farmer, and you will soon get a wealth of ideas from the experience of other farmers who have experienced and solved similar difficulties. The Nor'-West Farmer is a "round-table," around which the best farmers of Western Canada meet. Will you be one of them?

Note and Comment

Plant, brother, plant with care.
Plant the garden in the sun's bright
glare.
A long straight row for the radish
rare,
A fuzzy furrow for the lettuce there.
Plant, brother, plant your share.
Plant your stuff for the family fare.

A man in this town got a new
car, recently. The first time he
ran it it got fractious and plov-
ed through a three strand barbed
wire fence, and it made him
so mad that he remarked to the
auto, as if it could hear him;
"Someone you! you went thru
where I didn't want you to, now
do it when I want you to," and
he ran the car thru the fence
again.

The man who is looking for a
soft place without honest labor
can usually find it under his
hat.

The farmer, merchant or other
citizen of the West, has often
felt the need of information as
to the exact location of the
points at which the sittings of
the different Courts are held or
at which title deeds, chattel
mortgages, transfers affecting
personal property, etc., may be
registered. The new issue of
the Land Registration and
Judicial Districts Map which
has recently been published by
the Department of the Interior
through its Natural Resources
Intelligence Branch shows by a
simple color scheme the bound-
aries of both land registration
and judicial districts in Alberta,
Saskatchewan and Manitoba.
The towns which are the centres
of the respective land titles
or land registration districts as
well as the places where the
county or district courts and
the Supreme or Courts of King's
Bench sits are indicated by
simple conventional signs.

A copy of this map may be
obtained free of charge on ap-
plication to the Natural Re-
sources Intelligence Branch of
the Department of the Interior,
Ottawa.

Charles Stewart, ex-reeve of
Ashfield, and himself a prom-
inent farmer of Huron County,
Ont., and a member of the U-
nited Farmers of Ontario, has
this to say:

"I am opposed to the move-
ment among farmers to buy all
their goods from the big centres.
The farmer needs the local

merchant as much as the mer-
chant needs the farmers' pat-
ronage, because, if business
places in small towns are wiped
out the value of farm property
will not increase,

The Alberta Government has
seen fit to issue a proclamation
calling upon all people in the
Province on May 25th to attend
some Sunday School session
that day.

The Alberta Sunday School
Federation has prepared a spe-
cial program for that occasion
and has distributed the same in
all sections of the Province.

An effort is being made in
this way to arouse interest in
the work of Religious Educa-
tion. The various denomina-
tions have joined their forces in
this work and thus present a
united front. Only one in ten
in the Province attend Sunday
School now. Why not all turn
out that day?

It may seem that, in a num-
ber of Districts, someone will
have to take the lead for the
day. Why not call a meeting
for that day and discuss the
religious need of the commu-
nity and suggest plans for meet-
ing the need? Here is an op-
portunity for the whole Province
to unite in a common good,
and we trust to hear of many
successful gatherings.

The General Secretary of the
Federation would like to have
a report for the day. A card
to 400 MacLenn Block, Calgary,
would be appreciated.

The Village By-Laws regard-
ing the construction of chim-
neys and the installation of the
tray system in out-houses are
apparently not being enforced.

We have been given to under-
stand that the Village intends,
very shortly, to prosecute those
who have failed to obey the law
in this respect.

ECONOMY
applied with a
Paint Brush

THE great national duty to-day is to "conserve." It's a duty you owe
yourself as well as your country. A duty just as applicable to a
house, or building, as it is to the things you eat and wear. Build-
ings, in fact, show so tremendous an increase in cost, that the importance
of keeping them protected is apparent to all who know how steel, wood,
brick and cement have jumped in price. And the cheapest protection you can give a building is the kind you apply
with a brush—PAINT. For true protection, scorn the ineffectual, cheap paints. Use only

B-H "ENGLISH" PAINT 70% Pure White Lead
(Brandram's Genuine B.B.)
30% Pure White Zinc
100% Pure Paint

The kind we guarantee to possess as its important base, the above correct formula.
This formula, printed on every can, and guaranteed over our President's signature, commits us to this standard. High
in cost as white lead has become, we must use it in the same proportion as heretofore. To use less of it, would ne-
cessitate the removal of the guarantee from our cans—and to do that would injure the reputation that these paints
have acquired by reason of their superior ingredients. It is by using pure white lead and pure white zinc in such
liberal quantities that we have been able to produce a paint that truly excels in covering capacity—and that stands
the severe "climate test" of Canada in a way that spells true economy for all who use it.
